

Purpose, Vision and Values

Purpose

- We support the University's academic mission by leading on and enabling business continuity, compliance, information security and risk management.

Vision

- To be a respected centre of expertise and advice, offering people practical guidance, responsive support and digital tools that meet the evolving needs, protect the reputation, and increase the organisational resilience of our collegiate University.

Our Values

We collaborate closely with each other, and the academic and professional services community, to develop and implement easy-to-use, accessible strategies, policies, guidance, tools, training and digital services tailored to the evolving needs of the collegiate University.

COLLABORATION

RESPECT

INTEGRITY

We value the diversity and different strengths we collectively bring to the Directorate. We are inclusive, ensure equality, and respect and trust each other, embracing our varied ways of working and how they contribute to the overall success of the University.

ASSURANCE

We have the courage and integrity to challenge colleagues constructively when required, to provide robust assurance, and to protect the interests of our people and the University.

AGILITY

We are agile and open to innovation and new ways of working, continuously seeking to improve and adapt our services in response to a complex, changing environment, and the evolving needs of all of our stakeholders.

PROFESSIONALISM

We are professional and instil confidence by keeping our skills and expertise up-to-date, taking ownership of and resolving issues in a timely manner, delivering what was promised, and making a good impression.
